SCALING UP YOUTH LEADERSHIP IN SEXUAL & REPRODUCTIVE HEALTH

GOJoven INTERNATIONAL

In 2004, GOJoven International deployed its GOJoven Model for Youth Leadership in Sexual and Reproductive Health to strengthen local leadership of youth and their organizations in Belize, Guatemala, Honduras and Quintana Roo, Mexico, to advance policies, programs and services to improve adolescent sexual and reproductive health and rights (ASRHR).

Initially headquartered in the US, by 2013 the in-country GOJoven Alumni Fellows were running their own GOJoven trainings and programming through four new and independent local NGOs. Local ownership by these GOJoven Alumni Associations is increasing the reach and scale of the GOJoven Model.

GOJOVEN SCALE-UP

Youth & Adolescents Reached

GOJoven International	GOJoven Alumni Associations	TOTAL
30,000+	52,000+	82,000+
